

SMART SERVICE APPOINTMENT & WARRANTY AUTOMATION

Phase 9: Reporting, Dashboards & Security Review — Smart Appointment & Warranty Automation

Goal

Monitor business performance and secure data for **Smart Appointment & Warranty Automation**.

What We Implemented & Achieved

1. Folders & Naming Conventions

- **Created Folders:**
 - SmartService / Reports
 - SmartService / Dashboards
- **Access Control:**
 - Managers: Viewer + Editor
 - Agents: Viewer

Achievement: Reports and dashboards organized into dedicated folders with clear access controls.

Report: Warrenties

Warranty Expirations — 30d

Grand Total

2. Custom Report Types

- Created Custom Report Type:
 - Primary Object: Service_Appointment__c
 - Secondary Object: Warranty__c
 - Relationship: "A record may or may not have related B records" (left outer join)
 - Label: Service Appointment with or without Warranty

Achievement: Enabled reporting on appointments with or without related warranties.

3. Reports

- Appointments by Status (Summary):** Grouped by Status, showing count & duration.

- **Warranty Expirations (Matrix):** Warranty Status (Active/Expiring/Expired) vs. Warranty Type, filter expiry in 30 days.
- **Appointments by Technician (Summary):** Workload by Technician.

Achievement: Comprehensive reporting covering utilization, revenue, expirations, technician workload, and admin exports.

The screenshot shows the configuration page for a custom report titled "Service Appointment with or without Warranty". The interface includes a left-hand navigation menu with categories like Setup, Home, and Object Manager. Under "Analytics", the "Reports & Dashboards" section is expanded, showing options like Access Policies, Historical Trending, Report Types, Reporting Snapshots, and Reports and Dashboards Settings. The "Report Types" option is selected.

The main content area displays the report configuration details:

- Details:**
 - Display Label:** Service Appointment with or without Warranty
 - API Name:** Service_Appointment_with_or_without_Warranty
 - Description:** Show appointments and related warranties
 - Created By:** Bhavitha Bolla, 9/24/25, 1:48 PM
 - Store in Category:** accounts
 - Deployment Status:** Deployed
 - Modified By:** Bhavitha Bolla, 9/24/25, 1:51 PM
- Fields:**

Source Object	Included Fields
Service Appointments	21
- Object Relationships:** A diagram showing a relationship between "Service Appointments (A)" and a table icon labeled "A".

Buttons for "Preview Layout", "Edit Layout", and "Clone" are visible in the top right corner of the configuration area.

4. Dashboards

- **Dashboard Created:** SmartService — Overview
- **Components Added:**
 - Gauge: SLA / On-time appointment %
 - Bar Chart: Appointments by Status
 - Donut: Warranty Status breakdown
 - Metric: Total Open Appointments

- **Dynamic Dashboard Enabled:** View as "The dashboard viewer".

Achievement: Real-time, role-based visualization of business KPIs.

5. Sharing Settings

- **OWD Set To Private:**
 - Service Appointment = Private
 - Warranty = Private

6. Field Level Security

- **Field Hidden:** Customer_ID_Proof__c not visible to Agent profile.
- **Layout Updated:** Field removed from Agent page layout.

Achievement: Sensitive customer data hidden from Agents.

The screenshot shows the Salesforce Setup interface for Profiles. The left sidebar has a search bar with 'profiles' and a list of items including 'Users' and 'Profiles'. The main content area is titled 'Profiles' and includes a 'New Profile' button and a table of profiles.

7. Session Settings & Login IP Ranges

- **Session Timeout:** 30 minutes of inactivity.

Session Settings

Set the session security and session expiration timeout for your organization.

Session Timeout

Timeout Value: 30 minutes

☐ Disable session timeout warning popup

☒ Force logout on session timeout

Session Settings

☒ Lock sessions to the IP address from which they originated

☒ Lock sessions to the domain in which they were first used

☐ Terminate all of a user's sessions when an admin resets that user's password

☒ Force relogin after Login-As-User

☐ Require HttpOnly attribute

☐ Use POST requests for cross-domain sessions

☐ Enforce login IP ranges on every request

☐ When embedding a Lightning application in a third-party site, use a session token instead of a session cookie.

Extended use of IE11 with Lightning Experience

EXTENDED USE OF IE11 WITH LIGHTNING EXPERIENCE HAS NOW ENDED

AS OF DECEMBER 31, THE EXTENDED PERIOD HAS ENDED, AND USE OF INTERNET EXPLORER 11 (IE 11) WITH LIGHTNING EXPERIENCE IS NO LONGER SUPPORTED. ISSUES WITH PERFORMANCE OR FUNCTIONALITY THAT AFFECTED SUPPORTED BROWSERS.

Caching

☒ Enable caching and autocomplete on login page

☒ Enable secure and persistent browser caching to improve performance

☒ Enable user switching

☐ Remember me until logout

☒ Enable Content Delivery Network (CDN) for Lightning Component framework

- **Login IP Ranges:**
 - Restricted Agent profile to office IP range (sample: 49.43.216.1 - 49.43.216.255).

Achievement: Secured login access to trusted IPs, enforced session timeout.

8. Audit Trail

- **Exported Audit Trail (CSV):** Captured admin changes for last 6 months.
- **Logged Changes:** OWD updates, Sharing Rules, FLS, Session & IP restrictions.

Achievement: Transparent record of security & configuration changes.

The screenshot displays the Salesforce Setup Audit Trail interface. The left sidebar contains navigation links for Setup, Home, Object Manager, Feature Settings, Sales, Contact Intelligence, Lead Intelligence, and Security. The main content area is titled "View Setup Audit Trail" and shows a table of the last 20 entries. The table columns are Date, User, Source Namespace Prefix, Action, Section, and Delegate User. The actions listed include adding login IP ranges, creating agent profiles, changing session timeout values, changing lock session settings, setting session security levels for multi-factor authentication, passwordless login, lightning login, activation, delegated authentication, and username password, and changing profile Einstein Agent User field level security.

Date	User	Source Namespace Prefix	Action	Section	Delegate User
9/24/2025, 2:33:08 AM PDT	sbavithaba@2055611@accentforce.com		Added Login Ip Range to Agent Profile from 49.43.216.139 to 49.43.216.139	Manage Users	
9/24/2025, 2:30:14 AM PDT	sbavithaba@2055611@accentforce.com		Created profile Agent Profile: Cloned from profile Standard User	Manage Users	
9/24/2025, 2:25:46 AM PDT	sbavithaba@2055611@accentforce.com		Changed Session Timeout Value from 120 to 30 minutes	Session Settings
